27 March 2017

Approval of "AXOR" Combination Tap Assemblies

Your letter ref. HG/HK/WSD/015/03/17 dated 10 March 2017 refers.

It is noted that the fittings described below have been accepted by the United Kingdom Water Regulations Advisory Scheme (WRAS) to have complied with the requirements of the United Kingdom Water Supply (Water Fittings) Regulations / Scottish Water Byelaws when correctly installed.

Name of Manufacturer: Hansgrohe SE

Country of Origin: Germany

Brand: Axor

Details of Fittings: Single hole, single outlet (fixed) combination tap assembly (chromium plated brass) incorporating a joystick controlled ceramic cartridge headwork. The spout outlet incorporates a plastic aerator. The 39031000 & 39035000 models are supplied with a pop-up waste. Maximum working pressure: 10.0 Bar. Maximum operating temperature 60°C.

Model: 39031000, 39032000 and 39035000

Size: Stainless steel braided PEX lined flexible hose assemblies with 3/8" captive nut end connections

Marking: Axor and Hansgrohe on front of body

WRAS Approval Number: 1611036

Installation Requirements: R001, R006, R009, R010

Expiry Date: 30 November 2021

In view of the acceptance by WRAS, this Authority has no objection to the use of the said fittings in fresh water plumbing systems subject to full adherence to Waterworks installation requirements. In particular, you are required to draw your customers' attention to the following installation requirements –

“Installation shall comply with the ‘Installation Requirements & Notes’ of the WRAS’s approval letter concerned.” AND

“The cold water supply to the fittings shall be drawn from the same source that supplies the hot water apparatus so as to provide a balanced pressure and to obviate the risk of scalding in the event of a restriction or failure in the water supply.”

A condition of this acceptance is that the fittings to be installed should be replicas of the samples certified by WRAS and no modification should be made to the fittings. This acceptance may be withdrawn at any time if the standard of the fittings installed fails to meet that of the approved samples or if the fittings are found to be unsuitable for use in fresh water plumbing systems.

This acceptance is only applicable to the main body of the fittings, unless other specified.

For the use of the fittings in any project, the Acceptance Reference Number at the bottom of this letter must be quoted as a means of identification of acceptance of the fittings by this Authority.

Should you have any enquiries, please contact our Engineer Mr Terry KUNG at tel. no. 2294 2656.

Yours faithfully,

(CHAN Chung Kun)
for Water Authority
