### Approval of "GROHE" Combination Tap Assemblies

Your letter ref. WRC/1423 dated 17 July 2017 and subsequent clarification by email on 28 July 2017 refer.

It is noted that the fittings described below have been accepted by the United Kingdom Water Regulations Advisory Scheme (WRAS) to have complied with the requirements of the United Kingdom Water Supply (Water Fittings) Regulations / Scottish Water Byelaws when correctly installed.

**Name of Manufacturer:** Grohe AG

**Country of Origin:** Portugal

**Brand:** Grohe

**Details of Fitting:** Range of single hole, single outlet (swivel) combination tap assemblies (chromium plated brass). Incorporating ceramic cartridge headwork and single lever operating members. The spout outlet incorporates a plastic aerator. Maximum working pressure 10.0 bar. Maximum operating temperature 60°C.

**Model:** 32.661.001 & 32.661DC1

**Size:** Stainless steel braided PE-X lined flexible hose assemblies with 3/8" BSP captive nut end connections

**Marking:** Grohe on body

**WRAS Approval Number:** 1702313

**Installation Requirements:** R001, R006, R009, R010

**Expiry Date:** 28 February 2022

In view of the acceptance by WRAS, this Authority has no objection to the use of the said fittings in fresh water plumbing systems subject to full adherence to Waterworks installation requirements. In particular, you are required to draw your customers' attention to the following installation requirements –

“Installation shall comply with the ‘Installation Requirements & Notes’ of the WRAS’s approval letter concerned.” AND

“The cold water supply to the fittings shall be drawn from the same source that supplies the hot water apparatus so as to provide a balanced pressure and to obviate the risk of scalding in the event of a restriction or failure in the water supply.”

A condition of this acceptance is that the fittings to be installed should be replicas of the samples certified by WRAS and no modification should be made to the fittings. This acceptance may be withdrawn at any time if the standard of the fittings installed fails to meet that of the approved samples or if the fittings are found to be unsuitable for use in fresh water plumbing systems.

This acceptance is only applicable to the main body of the fittings, unless other specified.

For the use of the fittings in any project, the Acceptance Reference Number at the bottom of this letter must be quoted as a means of identification of acceptance of the fittings by this Authority.

Should you have any enquiries, please contact our Engineer Mr Terry KUNG at tel. no. 2294 2656.

Yours faithfully,

(Roger WONG)  
for Water Authority
