**Approval of “PEGLER” Thermostatic Mixing Valves
(General Acceptance No. B20240021)**

Your letters ref. Q-1342/24 and Q-1365/24 dated 18 June 2024 and 24 July 2024 respectively refer.

It is noted that the fittings described below have been accepted by the United Kingdom Water Regulations Advisory Scheme (WRAS) to have complied with the requirements of the United Kingdom Water Supply (Water Fittings) Regulations / Scottish Water Byelaws when correctly installed. This Authority accepts that the fittings described below based on the WRAS certificate and test report ref. BC-SUMMARY-2024-102 issued on 22 July 2024 by Castco Testing Centre Ltd. comply with, and their use when correctly installed does not contravene, the Waterworks Ordinance and Regulations.

Name of Manufacturer: Aalberts Integrated Piping Systems Ltd

Country of Origin: UK

Brand: Pegler

Details of Fitting: Thermostatic mixing valve

Model and Size:

PEG402	- 15mm, 22mm
TX402	- 15mm, 22mm
PEG402UA	- 15mm, 22mm
TX402UA	- 15mm, 22mm

Body Markings:

For PEG402:

CR on body, PEGLER on cap

For TX402:

TECTITE on body & cap, CR on body

For PEG402UA:

CR on body, PEGLER on cap, CR on the inlet leg

For TX402UA:

TECTITE on body & cap, CR on body,
CR on the inlet leg**WRAS Approval Number:** 240802001**Installation Requirements:** R001, R010, R040

(Appendix A of WRAS approval letter refers)

Expiry Date:

2 April 2029

In view of the acceptance by WRAS, this Authority has no objection to the use of the said fittings in fresh water plumbing systems subject to full adherence to Waterworks installation requirements. In particular, you are required to draw your customers' attention to the following installation requirements –

“Installation shall comply with the ‘Installation Requirements & Notes’ of the WRAS’s approval letter concerned.” AND

“The cold water supply to the fitting shall be drawn from the same source that supplies the hot water apparatus so as to provide a balanced pressure and to obviate the risk of scalding in the event of a restriction or failure in the water supply.”

A condition of this acceptance is that the fittings to be installed should be replicas of the samples certified by WRAS and no modification should be made to the fittings. This acceptance may be withdrawn at any time if the standard of the fittings installed fails to meet that of the approved samples or if the fittings are found to be unsuitable for use in fresh water plumbing systems.

This acceptance is only applicable to the main body of the fittings, unless otherwise specified.

For the use of the fittings in any project, the General Acceptance Number of this letter must be quoted as a means of identification of acceptance of the fittings by this Authority.

Should you have any enquiries, please contact our Engineer Mr Albert CHOW at tel. no. 3583 4086.

Yours faithfully,

(Terry KUNG)

for Director of Water Supplies
